My favorite season is spring, because its not to hot or cold. I also like it because it rains a lot.

Organization/Purpose: Score 1-

- The writer references the prompt and identifies two reasons spring is his/her favorite season— temperature and rainfall. This response is too brief.
- Few transitional strategies are used (“also” is used to link the sentences).
- There’s no conclusion.

Evidence/Elaboration: Score 1-

- Support is minimal: temperature and rainfall are listed but no details develop these points.
- The vocabulary is vague, limited.

Conventions: Score 0

- Spelling errors (“a lot” and “too”)
- Comma error
- Apostrophe use error
